UIC Department of Chemical Engineering
UNIVERSITY OF ILLINOIS AT CHICAGO
COLLEGE OF ENGINEERING

ASSIGNMENT #2

Course: CHE 341. CHEMICAL PROCESS CONTROL
Term: Spring 2020
Professor: Dr. Michael Caracotsios
Office: EIB 244
E-mail: mcaracot@uic.edu

Your name:____
Due Date: Wednesday February 05 by 5:00pm in my office

Number of points...............................100
Your score..................................

Assignment Guidelines

- Length: two to three pages. The research report should be single spaced with font: Times New Roman 12
- Prepare four to five Microsoft Power Point slides summarizing your research findings
- Include an industrial application showing the sensor and/or final control element in a control loop
- Students will be called randomly to make their presentation in front of the class during the lecture immediately following the assignment due date
- Please staple your assignment report and power point slides together
- A sample report from another year is attached. Please try to follow a similar logic.

Note: **All problems are worth 100 points. You final score will be the average value**

Problem 1A: Control Loop Hardware

1. **Review** of sensors for measuring composition
    a. **Abdraman – Caruso**

2. **Review** of sensors for measuring pH
    a. **Chavez-Gamoos**

3. **Review** of sensors for measuring flow
    a. **Guzik-Maret**

4. **Review** of sensors for measuring temperature
    a. **Markovic-Nordvall**

5. **Review** of sensors for measuring level
    a. **Odeesh-Serban**

6. **Review** of sensors for measuring pressure
    a. **Shehaden-Starakiewicz**

7. **Review** of final control elements
    a. **Takrouri-Zahda**
