

Name: David C. Brainer (print) ID#: 16.29
Your ID# is on the top of all of your score sheets.

Check only one: ☐ Faculty/UIC Judge ☒ UIC Alumni Judge ☐ Industry Judge

For ongoing ABET accreditation of Engineering programs, we would like to obtain your feedback on Program Educational Objectives (PEO's) of the department(s) within which you are judging Senior Design projects. PEO's are broad statements that describe the career and professional accomplishments that the program is preparing Engineering graduates to achieve approximately 3-5 years after earning their bachelor's degrees.

Please comment on the suitability of the departmental PEO's. Would you suggest adding, omitting or changing any specific aspects?

CHEMICAL ENGINEERING EDUCATIONAL OBJECTIVES

1. In engineering practice, advanced study or original research, UIC Chemical Engineering bachelor's degree graduates will be effective in applying fundamental principles, scientific knowledge, rigorous analysis, creative design, and conceptual innovation.
2. Based upon mastery of engineering in a broad, societal context, UIC Chemical Engineering graduates ^{are} ~~will~~ ^{be} ~~will~~ have successful careers in the public or private sectors, or in the pursuit of graduate education.
3. In the service of industry, government, the engineering profession and society at large, graduates ^{are prepared} ~~will~~ ^{to} function effectively in the complex modern work environment with clear communication, responsible teamwork, and high standards of ethics, professionalism, safety and protection of the environment.
4. Based upon a rigorous undergraduate program that is innovative, challenging, open and supportive, graduates will enhance their skills and knowledge through life-long learning and demonstrate professional leadership.

Aside — my degree was in BioEngineering, so I can't really speak to any specifics.

There is no teacher like experience, something that can't be learned or taught in an educational setting. Each graduate should have the tools necessary for successful careers, but personal motivation and desire will be equally important to that success.

② from above. "Mastery" assumes you learned everything possible and mastered it. "Based upon successful completion" might be an alternate option.

—③ "Clear communication" is difficult for many. Perhaps say that objective is to improve, provide guidance, or emphasize clear communication as opposed to saying graduates will communicate clearly.
