

Classrooms

SL. No.	Facilities Name	Description	Link
1	main classroom site	The ACCC provides and maintains the technology in over 185 common-use classrooms (those owned and scheduled by the Office of Classroom Scheduling), and trains and supports faculty and staff in the use of that technology. The Learning Technology Solutions support office is centrally located in Lecture Center E, to provide a single point of contact for any support needed.	link
2	types of AV systems are available at UIC	ACCC has three types of AV systems available for use in common classrooms.	link
3	Classrooms Audio Video System	Explains How do I use the AV system.	link
4	Zoom Video Conferencing	Zoom can be used in classrooms along with a webcam and/or document camera (if applicable). If a classroom has a synchronous supported document camera, you can use it as you normally would and both the Zoom meeting participants and students present in class will be able to see the doc cam. You can also share files such as PowerPoint presentations, Word documents, PDFs, and contents on a browser, as well as sharing your entire screen.	link
5	Document Camera	There are two types of document cameras available in classrooms	link
6	Blackboard Collaborate in Classrooms	Blackboard Collaborate can be used in classrooms along with a webcam and/or document camera (if applicable). If a classroom has a synchronous supported document camera, you can use it as you normally would and both the meeting participants and students present in class will be able to see the doc cam. You can also share files such as PowerPoint presentations, Word documents, PDFs, and contents on a browser, as well as sharing your entire screen.	link
7	Multimedia Systems	Explains the use of Integrated Multimedia Systems.	link
