

Ethics Assessment – CHE 499 –Spring 2019 and Spring 2020

Student Learning Outcome 4

Rubric for assessment: Ethics Quiz from National Society of Professional Engineers

NSPE Code of Ethics

SLO 4 Performance Indicator (PI)	(1) Unsatisfactory	(2) Developing	(3) Satisfactory
1. The understanding for the Code of Ethics (NSPE)	Student is not aware of any codes for ethical behavior	Student is aware of the existence of the NSPE Code of Ethics and other bases for ethical behavior	Student understands and abides by the AICHE Code of Ethics

Performance Indicator Averages:

Spring 2019: 2.31

Spring 2020: 2.87

Overall Average: 2.59

Average scores increased from Spring 2019 to Spring 2020. Spring 2019 was the first time the quiz was administered. Also, the Spring 2020 quiz was a take-home quiz and the students were allowed to discuss amongst their classmates. Many read over the NSPE code of ethics and were able to make the connection to the quiz questions.

True/ False questions

1. Engineers, in the fulfillment of their professional duties, must carefully consider the safety, health, and welfare of the public.
2. Engineers may issue subjective and partial statements if such statements are in writing and consistent with the best interests of their employers, clients, or the public.
3. Engineers shall act for each employer or client as faithful agents or trustees.
4. If engineers' judgment is overruled under circumstances that endanger life or property, they shall notify their employers or clients and such other authority as may be appropriate.
5. Engineers shall undertake assignments only when qualified by education or experience in the specific technical fields involved.
6. Engineers may affix their signatures to plans or documents not prepared under their direction and control where they have a good faith belief that such plans or documents were competently prepared by another designated party.
7. Engineers may express publicly technical opinions that are founded upon knowledge of the facts and competence in the subject matter.
8. Engineers shall not accept compensation, financial or otherwise, from more than one party for services on the same project, or for services pertaining to the same project, unless the circumstances are fully disclosed and agreed to by all interested parties.
9. Engineers shall not solicit but may accept financial or other valuable consideration, directly or indirectly, from outside agents in connection with the work for which they are responsible, if such compensation is fully disclosed.
10. Engineers may use any software that is given to them by their employer, regardless of how their employer obtained this software.
11. Engineers may solicit or accept a contract from a governmental body on which a principal or officer of their organization serves as a member.
12. Engineers shall acknowledge their errors and shall not distort or alter the facts.

Answers: Question 1 is shown as False in the NSPE website, however it can be considered True

1. TRUE or FALSE
2. FALSE
